COCKTAIL SHAKER

Standard shaker is most common in use and consists of three elements – larger metal tumbler, strainer and cap, which can be used as a jigger. Standard shaker or cobbler is the good choice for home use or for making easy cocktails in the bar.

STRAINER

The strainer is used by bartenders for separating rather large particles such as ice or fruit bits while pouring cocktail from shaker to the glass. This bar tool mostly used to accompany the Boston shaker, which doesn't have a built-in strainer.

Strainer from Wilmax is versatile, thanks to its efficient design it can be securely attached to any shaker tin.

BOTTLE POURER

Pouring spout or bottle pourer allows not only impressively fill the drinks with a uniform stream, and controlling the volume, but also helps significantly save time on making cocktails. Wilmax's metal bottles pourers can replace lids and caps on any kind of bottles, secure its content and greatly simplify the process of making drinks.

MUG

Bar mugs from Wilmax made of stainless steel type 18/10 and designed to make and serve various drinks and cocktails. These models are perfect for iconic cocktail Moscow Mule or other popular drinks, which make mugs irreplaceable in any bar. The range of mugs from Wilmax contains smooth and textured corrugated shapes in the different volumes and in three colour solution – clean metal, golden and copper finish.

BOSTON COCKTAIL SHAKER

The Boston cocktail shaker consists of two metal tumblers which superimpose on one another. The Boston shaker is the professionals' choice. It requires a bit more skill to use, but once it's mastered, the process becomes faster, rather than with standard shaker. This shaker is perfect for making any, even the most complicated cocktails.

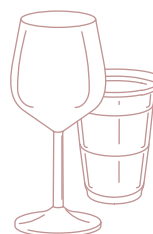

MUDDLER

Muddler from Wilmax is another bar essential, which can help bartender neatly mash any of cocktail ingredients, such as lemon, apple or mint. Pressing fruits with muddler not only extracts juice but forces some components to emit essential oils, it helps to improve gustatory quality of drinks.

JIGGER

Jigger is necessary bar tool, which designed to measure all the ingredients added to the cocktail. Jigger also can be called a measuring cup. Double-sided models will surprise with its versatility, and a wide range of sizes, shapes, and volumes of our jiggers allow bartender to precisely follow the original recipe.

GLASS

Fast and convenient preparation of drinks as addition to spectacular serve is the main reason why the collection Barware by Wilmax has been created. Metal glass is the stylish solution for serving cocktails. Glass made of this material allows the drink to remain chilled even if it doesn't contain ice.
