

## RETHINK CUBIC

These baths are based on the Lugo models. Rethink Cubic is characterized by the slotted overflow at the front of the bath. The bath has a low rim and a pop-up in the color of the bath. All Rethink Cubic baths can be performed with Riho Fall; this integrated bathtub faucet/overflow makes a separate bathtub faucet superfluous and makes the arrangement even more beautiful, together with a built-in faucet. The bathtubs can also be ordered as Velvet or Plug&Play or Rihopool Air, Flow, Joy or Bliss systems. The Plug&Play baths have the overflow on the wall side and are delivered with assembled overflow, drain and leg set.

Riho acrylic baths are made of high-quality cast acrylic, fully reinforced and all through white in colour. Our acrylic baths are non-aging and UV resistant. The material is completely pore-free and smooth. Lime will adhere poorly so no bacteria remain, also it makes the baths easy to clean. Its surface is pleasantly warm. These double sided baths standard include a legset and an overflow/drain overflow/drain combination.
